STUMP CUTTER

**Respected in
the Industry.**

The Productive, Low-Maintenance Stump-Cutting Answer.

The Vermeer® SC252 stump cutter has redefined industry standards for smaller-sized stump-cutting units. The optional AutoSweep® system increases productivity while reducing drive-train wear. Available dual tires increase stability and improve flotation on soft surfaces, and a 19" (48 cm) cutter wheel (with Pro Series teeth) rips through your stump-cutting projects. With a 25 hp (19 kw) Kohler engine, the SC252 has the power and reliability to tackle a variety of applications.

Vermeer designed the SC252 to make stump cutting easier on the operator and machine – without sacrificing performance. The control panel is uncluttered to reduce distractions as you operate the equipment. The hydraulic controls are engineered to precisely feather the sweep of the cutter wheel for maximum production results with minimum strain to the machine.

An uncluttered control panel provides a faster learning curve for users and reduces distractions during operation of the machine. The hydraulic controls are engineered to produce maximum production results with minimum wear to the machine.

Optional rear dual tires improve flotation on soft surfaces and add stability on uneven terrains, enabling operators to work in more restrictive ground conditions.

A narrow width of 35" (89 cm) allows users to fit the SC252 stump cutter through most standard gates and constricted openings. Additionally, the unit is able to maneuver in tight work areas.

The SC252 optional hydraulic front steer features an oscillating axle for mobility, Ackerman steering geometry for tighter turns, an easily accessible single lever control and hardened steel pivot pins and bushings.

SC252 Specifications

General

Weight: 1040 lb (472 kg)
Length: 115" (292 cm) (w/ cutter guard)
Width: 35" (89 cm) (w/ cutter guard)
Height: 53" (135 cm) w/ Kohler engine

Engine

Make and model: Kohler Command CH25
Gross horsepower: 25 hp (19 kw) @ 3600 RPM
Electrical system: 12-volt
Fuel-tank capacity: 6 gal (23L)

Hydraulic System

Oil-tank capacity: 2.8 gal (10.6 L)
Hose capacity: 12,000 psi (827 bar) burst
Oil type: Vermeer VMF, biodegradable oil optional

Cutter-Wheel Drive Train

Wheel diameter: 19" (48 cm) w/ teeth
Wheel thickness: .5" (1.3 cm)
Drive: Two-stage, Vee-belt
Tooth style: Pro Series forged teeth and pockets
Tooth quantity: 16

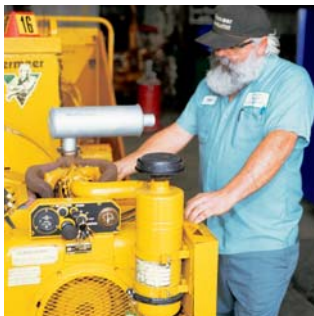

Cutting Dimensions

Above ground level: 25" (64 cm)
Below ground level: 13" (33 cm)
Width: 39" (99 cm) straight, 40" (102 cm) arc

Your Complete Global Service Provider for Quality Parts and Service.

Get the parts and service edge. In addition to providing quality equipment, Vermeer delivers top-quality parts and superior services. Vermeer parts are manufactured to exacting specifications to help keep your Vermeer equipment running trouble-free and at OEM specifications.

Vermeer offers factory-certified training programs to its dealer network to ensure that the most current service procedures are presented to the service personnel of your Vermeer dealer.

Genuine Vermeer parts are precision crafted to match to your Vermeer equipment EXACTLY. This ensures that your system will run as smoothly as possible, with the least amount of service and maintenance.

Building Industry Partnerships to Serve You Better.

Vermeer has forged strong strategic alliances with tree industry giants that include Sherrill Incorporated and ArborMaster Training. These alliances ensure that top-quality industry support is the standard at Vermeer dealerships. Membership with the NAA and ISA helps Vermeer stay in touch with the customers it serves and the issues they face.
